SITE PLAN REVIEW CHECKLIST

Project _____

Case# _____

Parcel # _____

Section 21.02 Required Data

A site plan shall consist of an overall plan for the entire development. Sheet size shall be at least twenty-four (24) by thirty-six (36) inches with the plan drawn to a scale of not less than one (1) inch equals fifty (50) feet for property under three (3) acres, and at least one (1) inch equals one hundred (100) feet for properties (3) acres or more. Twelve (12) complete sets shall be submitted for Planning Commission review. Two (2) complete sets and one (1) 11 X 17 sized set is required for Administrative review.

1. Site plans shall contain the following information:

Yes No

- a. The name and firm address of the professional land surveying civil engineering or architectural firm(s) or person(s) in the case of building re-occupancy, responsible for the preparation of the site plan.
- b. The name and address of the petitioner and property owner, if different.
- c. Date of preparation, revision dates, north arrow, and scale.
- d. Location of the development drawn at a scale of one (1) inch equal two thousand (2,000) feet with north point indicated. This location map shall depict the proposed development site, as well as all section lines and number, major roadways, and other significant area features.
- e. All lot and/or property lines, lot and easement dimensions, and a legal description of the lot. Required yard setbacks shall also be depicted and dimensioned on the plan.
- f. The location and height of all existing and proposed structures on and within one hundred (100) feet of the subject property and the names of all abutting properties within one hundred (100) feet of the subject property.
- g. The location and dimensions of all existing and proposed drives, sidewalks, curb openings, signs, exterior lighting, trash receptacles, parking areas (including dimensions of a typical parking space), unloading areas, and natural features.
- h. The location, pavement type, and right-of-way width of all abutting roads, roads, or alleys.
- 1. The location and dimensions of all greenbelts, berms, fences, and and/or walls.
- j. Size and location of existing and proposed utilities including proposed connections to public sewer or water supply systems, and location of all fire hydrants.

Special Use / Site Plan Review Application
Blair Township, Grand Traverse County

Yes No

___ ___

k. Size and location of all surface drainage facilities.

___ ___

l. Proposed building elevations and floor plan.

___ ___

m. For multiple-family development site plans, there shall be shown typical elevation views of the front and side of each type of building proposed, as well as typical dimensioned floor plans for each type of dwelling unit.

___ ___

n. Site data chart comparing the existing and proposed improvements with the schedule of regulations for the appropriate zoning district, as well as parking and landscape requirement calculations.

___ ___

o. A summary schedule should be affixed, if applicable, which gives the following data:

1) The number of dwelling units proposed, including the number, size, and location of one-bedroom units, two-bedroom units, mobile home sites, etc.

2) The residential area of the site in acres and in square feet, including the breakdowns for any subareas or staging areas (excluding all existing rights-of-way).

___ ___

p. Location and function of both developed and undeveloped open spaces, as well as the layout of facilities to be included on developed open spaces.

___ ___

q. Depiction of major wooded areas and description of how they will be preserved.

___ ___

r. Site grading plans.

___ ___

s. Landscaping plans.

___ ___

t. Description of the areas to be preserved in a natural state.

___ ___

u. Existing and proposed contour shall be shown on all site plans (two (2) foot interval minimum) as may be required by the Township Engineer or Zoning Administrator.

___ ___

v. Additional Required Information: The following information shall be submitted if requested by the Zoning Administrator:

1) A landscape plan identifying trees twelve (12) inches or larger in caliper.

2) A description of all exterior building materials.

3) Population profile for the development.

4) Proposed financing.

5) Traffic Impact Study.

Special Use / Site Plan Review Application
Blair Township, Grand Traverse County

- 6) Market and Economic Feasibility Study.
- 7) Other information pertinent to the development or use.

The requirements of this section are basic to all uses that require site plan approval. In addition, all site plans must demonstrate conformance with the applicable development requirements contained elsewhere in this Ordinance, such as off-road parking, loading, landscaping, unless specific requirement of this Zoning Ordinance is waived or modified by the decision making body as provided in this Ordinance.

Yes No

Section 16.05 Greenbelt Buffers, Screening, Landscaping

- Right of Way Buffer (1 tree for every 30 feet of right of way frontage)
- Screening between land uses
- General site landscaping (1 tree for every 3,000 sq ft of site area)
- Parking Lot landscaping

Trash Screening

- 6 foot high walls
- Approved material

Section 19.12 Off –Road Loading and Unloading Requirements

- 10' x 50' with 14' clearance

Parking

- # of space per Section 19.09
- Appropriate # of barrier free spaces
- Correct width, length and maneuvering lane (section 19.11)

Each of these standards needs to be addressed and attached to the application for a complete packet. If NOT completed the application will not be accepted and may delay action on application.

Section 21.03 Standards for Approval

A site plan shall be reviewed and approved by the Planning Commission upon finding that the following conditions are met:

1. That the proposed use will not be detrimental to the adjacent property or the surrounding neighborhood, including properties located in adjacent municipalities.
2. That there is a proper relationship between existing roads and highways and proposed deceleration lanes, service drives, ingress and egress drives, and parking areas to assure the safety and convenience of pedestrian and vehicular traffic.
3. That buildings, structures, parking areas, utility areas, walls, and fences are so designed and located to minimize the adverse effects of such development on users of such development and occupants of adjacent properties.
4. That any adverse effects of the proposed development and activities which will impact adjoining occupants or owners shall be minimized by appropriate landscaping, fencing, or other screening.
5. That as many natural landscape features as possible are retained, particularly where they provide a barrier or buffer between the development and adjoining properties used for dissimilar purposes, and where they assist in preserving the general appearance of the neighborhood or help control soil erosion or the discharge of storm water.
6. The proposed development provides for the proper development of public utilities and infrastructure.
7. All buildings or groups of buildings are arranged to permit emergency vehicle access.
8. That the plan for soil erosion control, storm water discharge, wells, and on-site septic systems have been approved. Site plan approval may be conditioned upon providing evidence that the necessary permits have been applied for. A land use permit shall not be issued until the Zoning Administrator receives a copy of the required permit(s).
9. The Planning Commission may further require landscaping, fences, and walls in pursuit of these objectives and same shall be provided and maintained as a condition of the establishment and the continued maintenance of any use to which they are appurtenant.
10. For a narrow frontage, which will require a single outlet, the Planning Commission may recommend that escrow money be placed with the Township so as to provide for a marginal service drive equal in length to the frontage of the property involved. Zoning compliance permits shall not be issued until the improvement is physically provided or monies having been deposited with the Township Clerk
11. Where the Township has adopted a specific area or neighborhood improvement or redevelopment plans and recommendations involving, but not limited to, public rights-of-way, utilities and storm drainage, parking facilities, building placement, access drives, floor space density allocations, building facade and architectural treatment, no site plan shall be approved unless there is general compliance with such Township plan.

Special Use Requirements

A complete list of requirements is located in Article 22 of the Blair Township Zoning Ordinance.

2. An application for a special use permit shall contain the following:
 - d. Supporting statements, evidence, data, information and exhibits that address those standards and requirements for assessing special use permit applications outlined in Section 22.04.

Each of these standards needs to be addressed and attached to the application for a complete packet. If NOT completed the application will not be accepted and may delay action on application.

Section 22.04 Standards for Approval

1. The Planning Commission shall review the particular circumstances and facts related to each proposed special use application in terms of the following standards and requirements and shall make a determination as to whether the use proposed to be developed on the subject parcel meets the following standards and requirements:
 - a. Will be harmonious with and in accordance with the general objectives of the Master Plan.
 - b. Will be designed, constructed, operated, and maintained in harmony with the existing and intended character of the general vicinity and the natural environment so that the use will not change the essential character of that area.
 - c. Will not be hazardous or disturbing to existing or future neighboring uses.
 - d. Will represent a substantial improvement to property in the immediate vicinity and to the community as a whole.
 - e. Will be served adequately by essential public services and facilities, such as highways, roads, drainage structures, police and fire protection, and refuse disposal; or, the persons or agencies responsible for the establishment of the proposed special use shall be able to provide adequately for such services.
 - f. Will not create excessive additional requirements at public cost for public facilities and services, and will not be detrimental to the economic welfare of the community.
 - g. Will not involve uses, activities, processes, materials, equipment and conditions of operation that will be detrimental to any persons, property, or the general welfare by reason of excessive smoke, fumes, glare, noise, vibration or odors.

Special Use / Site Plan Review Application
Blair Township, Grand Traverse County

2. The Planning Commission may recommend approval, approve with conditions, or deny the special use application. The recommendation on a special use shall be incorporated in a statement containing conclusions reached relative to the proposed special use that specifies the basis for the decision and any conditions recommended.

In recommending approval of a special use application to the Township Board, the Planning Commission may recommend additional conditions and safeguards deemed necessary for the general welfare of the Township, for the protection of individual property rights, and to ensure that the purposes of this Ordinance are met.

Upon holding a public hearing and reviewing the special use request, the Planning Commission shall forward to the Township Board its finding and recommendation. The finding shall include a record of those conditions that are recommended to be imposed.
